How it works

Voice

Sound like

- Calm, specific, and short.
- Name the coin: Valorem or Ips.
- Call sample prices and hosts samples.
- Say a hold lasts 45 seconds.

Leave out

- Emoji.
- Invented licenses, odds promises, or state lists.
- Winner marquees and VIP ranks.
- Mail-in entry instructions.

Usage

Do

- Keep branding in the theme pack and skins.
- Use deep green as the field, gold and silver as metal.
- Plural of the game coin is Valorem.
- Mark placeholders until counsel and the client replace them.

Do not

- Put the operator name inside a game package.
- Show sponsor placements. They are off.
- Advertise free entry in the hero. It stays in the footer.
- Imply this prototype pays anyone.

Prepared by Yavin Digital. Valorem (Yavin Digital sample operator) is a placeholder.
